PVC Coiled Material

1,introduction: PVC coiled material is an excellent performance, polymer waterproof sheet, plasticizer in PVC resin, anti light, anti-aging agent, stabilizer and so on. The polymer waterproofing sheet produced by extrusion process has the advantages of high tensile strength, high elongation, small shrinkage, good flexibility at low temperature, good aging resistance, good penetration resistance and long service life, especially the width of the product is up to 2.05 meters, which reduces the hidden danger of many seams

2,Performance characteristics

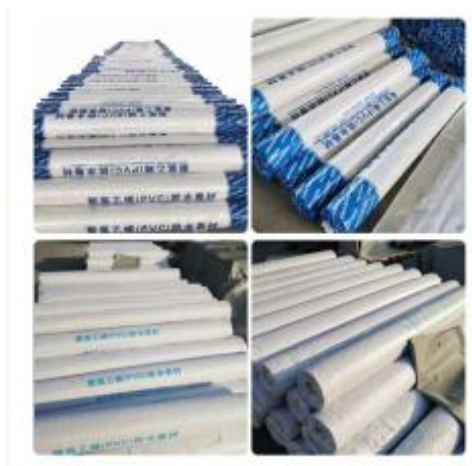

- 1) High tensile strength, high elongation and small change of heat treatment dimension
- 2) Good flexibility at low temperature, good adaptability to environmental temperature difference
- 3) Permeability resistance, can be made into planting layer
- 4) Good perforation resistance, weldable, firm and reliable
- 5) It has good plasticity and convenient corner treatment
- 6) The light colored surface reflects the direct sunlight, has good weather resistance, less heat absorption and low temperature
- 7) It has good water vapor diffusivity, easy to discharge condensate, and easy to discharge moisture and moisture.

3,Specification:1.0-2.0mm*2.05m*2m

4,Construction method: generally adopt the cold sticking method, empty paving method, mechanical fixation and hot air welding

Bridge

7, Construction site map

8.Good feedback of product use effect,the products have been exported to South Korea, Russia,Morocco

9.We are a professional supplier, who can provide customers with free product technology, use and other issues.

Do you want to find a professional supplier of PVC Coiled Material ?

SHANDONG TAIRAN IMPORT AND EXPORT CO.,LTD

Do you want to find a stable and credible supplier?

Then please contact with us
